"Yes. I ... I'm still soaked with

sweat." WHILE THE SLATS of ash-gray light slowly lost their meager luster, and sable shadows metastasized in sinister profusion, the sentinel silence remained unbroken between Junior Cain and the birthmarked man..The striking resemblance between this artist and Seraphim, as well as the facts in the biographical sketch under the photo, argued that the two were sisters..Barty wore elfin-size, knitted blue pajamas complete with feet, white rickrack at the cuffs and neckline, and a matching cap. His white blanket was decorated with blue and yellow bunnies..When his stomach rolled uneasily and his scalp prickled, he was seized by panic, certain that he was going to suffer both violent nervous emesis and severe hives, breaking out and churning up at the same time. He popped the capsules into his mouth but couldn't produce enough saliva to swallow them, so he turned on the faucet, filled his cupped hands with water, and drank, dribbling down the front of his jacket and sweater..NOLLY WULFSTAN, private detective, had the teeth of a god and a face so unfortunate that it argued convincingly against the existence of a benign deity..Saturday morning, he walked to a drugstore in town and purchased eight decks of cards. With four, he passed the day re-creating, again and again, what he'd done at the dining-room table the previous evening. The four knaves never appeared..Heart racing, Tom produced another quarter from a pants pocket. For the benefit of the adults, he performed the proper preparation-a little patter and the ten-finger flimflam-because in magic as in jewelry, every diamond must have the proper setting if it's to glitter impressively..With the great tree ninety degrees to his left, he was able to locate the back-porch steps at forty-five degrees. He pointed with the cane, which otherwise he had not used. "The porch?".body on the flight out of San Francisco. When finally her obligations were met, she..Looking from one to another of his companions, Tom said, "When I think of everything that had to happen to bring us here tonight, the tragedies as well as the happy turns of fortune, when I think of the many ways things might have been, with all of us scattered and some of us never having met, I know we belong here, for we've arrived against all odds." His gaze traveled back to Agnes, and he gave her the answer that he knew she hoped to hear. "This boy and this girl were born to meet, for reasons only time will reveal, and all of us ... we're the instruments of some strange destiny."..No inquiring voice echoed off the passage walls, no accusatory shout. He was alone with the cadaver in this mist-shrouded moment of the metropolitan night-but perhaps not for long..By lunch, he had turned the final page, and he was so full of the tale that he seemed to have no room for food. While his mother kept reminding him to eat, he regaled her with the details of John Thomas Stuart's great adventures with Lummo, as though every word that Heinlein had written were not science fiction, but truth..After the amusement park, no hospital for the Pie Lady. With Wally near, she had a doctor all her own, capable of giving her the anticancer drugs and transfusions that she required. While radiation therapy is prescribed for acute lymphoblastic leukemia, it is much less useful to treat myeloblastic cases, and in this instance, it wasn't deemed helpful, which made treatment at home even easier..During the past week, Junior had undertaken quiet background research on the prestidigitator with a badge. The cop was unmarried. He lived alone, so this bold visit entailed no risk..of Zedd constituted the most thoughtful, most rewarding, most reliable guide to life to be found anywhere. When Junior was Confused or troubled, he turned to Caesar Zedd and never failed to find enlightenment, guidance. When he was happy, he found in Zedd the welcome reassurance that it was all right to be successful and to love oneself..The ninth card was a jack of spades. Maria called it a knave of and at the sight of it, her bright smile dimmed..So burning with anger was he that his car, by direct thermal transmission from his hands upon the wheel, should have been glowing cherry red in the January night, should have been scorching tunnels of clear dry air through the cold fog. Rancor, virulence, acrimony, vehemence: All words learned for the purpose of self-improvement were useless to him now, because none adequately conveyed the merest minimum of his anger, which swelled as vast and molten as the sun, far more formidable than his assiduously enhanced vocabulary..Jolene started to refill his coffee mug-then thought better of it. "Maybe you don't need more caffeine, Edom."..She had expected horror, although perhaps not a horror quite as stark as this, and she had also expected to be crushed by it, destroyed, because although she was able to survive any misery that might be visited upon her, she didn't think that she possessed the fortitude to endure the suffering of her innocent child. Yet she listened, and she received the terrible burden of the news, and her bones did not at once turn to dust, though unfeeling dust was what she now preferred to be..Edom and Jacob flanked the gurney, each gripping one of Barty's feet through the sheet that covered them, escorting him with the same stony determination that you saw on the faces of the Secret Service agents who bracketed the President of the United States..At eleven o'clock Saturday morning, having just settled in the hotel after arriving from St. Mary's, they were waiting for the SFPD to deliver suitcases of clothes and toiletries that Rena Moller, Celestina's neighbor, had packed according to her instructions. While waiting, the three of them took an early lunch-or a late breakfast-at a room service table in the living room.. "Money's no object. I can afford whatever you'd like to charge. And I'd be a diligent student.".. "What car?" Celestina asked, stopping at the bottom of the steps and turning to look.. "Even when I was a young boy," Tom continued, "the world felt a lot different to me from the way it looked to other people. I don't mean I was smarter. I've got maybe a little better than average IQ, but nothing I could brag about. Flunked geography twice and history once. No one would ever confuse me and Einstein. It's just, I felt ... such complexity and mystery that other people didn't appreciate, such layered beauty, layers upon layers like phyllo pastry, each new layer more amazing than the last. I can't explain it to you without sounding like a holy fool, but even as a boy, I wanted to serve the God who had created so much wonder, regardless of how strange and perhaps even beyond all understanding He might be."..At 11:45, on her way to bed, Agnes stopped at Barty's room and found him propped against pillows. The book was not particularly large as books went, but it was big in proportion to the boy; unable to hold it open with his hands alone, he rested his entire left arm across the top of the volume..The boy fell and rolled even as he pitched the can, anticipating the shots that Cain fired, which cracked into the doorframe inches from Tom's knees..Impressed by the sureness and swiftness with which the blind boy negotiated the steps and set off across the lawn, Tom didn't initially notice anything unusual about his stroll through the deluge..Although to Paul this was no more than childish chatter, Tom knew at once that the girl referred to his explanation for why he wasn't sad about his damaged face: the salt and pepper shakers representing two Toms, the hit-and-run rhinoceros, the different worlds all in one place. "Yes, Angel. That's something like what I was talking about."..Lifted from his despair by this exhilarating wrath, Junior turned away from the mirror, looking for the bright side once more. Perhaps it was the bathroom window.. "Now, I'm doubtless," Vanadium said, his voice returning to the uninflected drone that Junior had come to loathe but that he now preferred to the unsettling voice of quiet passion. "No matter what the situation, no matter how knotty the question, I always know what to do..Now he shuffled the first of the four decks precisely as he had shuffled the first deck on Friday evening, and he set it aside..Junior intended to add one stocky ghost to the party. Perhaps on a summer night in years to come, at the edge of the light fall from his Coleman lantern, a fisherman would see a semitransparent Vanadium providing entertainment with an ethereal quarter..Slowly rotating his raised

hands before his eyes, as if he saw them young and supple-fingered, the magician described the amazing manipulations that a master card mechanic could perform. Though he spoke without flash or filigree, he made these feats of skill sound more sorcerous than hares from hats, doves from scarves, and blondes bisected by buzz saws. "I'm a healer, not a prosecutor. I'm not in the habit of making accusations, especially not against my own patients." "Maybe I won't have to try as hard as I think, because you make it so easy, Barty." Agnes had read the last half of Red Planet to Barty just the previous night, but he brought the book with him, to read it again. "When the Iroquois Theater in Chicago burned on December 30, 1903" he said aloud, testing his memory, "during a matinee of Mr Blue Beard, six hundred two people perished, mostly women and children." Alone with Agnes, the physician said, "I want you to take Barty to a specialist in Newport Beach. Franklin Chan. He's a wonderful ophthalmologist and ophthalmological surgeon, and right now we don't have anyone like that here in town." Surprisingly, he received a lot of gratification from voicing this insult, even though Vanadium was too dead to hear it. Leaving the engine running and the heater on, he got out of the car, leaned back inside, said, "Better lock up while I'm gone," and then closed his door. "That's not what they say," the boy replied with a giggle, for his extensive reading had introduced him to words that he and she agreed were not his to use. I also wanted information on various things that had happened back then, before Ged and Tenar were born. A good deal about Earthsea, about wizards, about Roke Island, about dragons, had begun to puzzle me. In order to understand current events, I needed to do some historical research, to spend some time in the Archives of the Archipelago. Soon he realized this was a mistaken assumption, because when the instructor began trying to unknot him from his lotus position, a defensive numbness deserted Junior, and he became aware of pain. Excruciating. The weather was good, so he went for a walk, though he crossed the street repeatedly to avoid passing newspaper-vending machines. "Water can break?" Maria asked, looking toward the faucet at the kitchen sink. She sighed. "I have so much to be learned." Barty whispered: "The North Pole Society of Not Evil Adventurers is now in session." The Worry Bear carries worries in his pockets. Under his Panama hat and in two gold locket. Carries worries on his back and under his arms. Nevertheless, dear old Worry Bear has his charms. Books were stacked high on a nearby table, favorite novels and volumes of verse, all of which Agnes had read before. With time so limited, she preferred the comfort of the familiar to the possibility that new writers and new stories would fail to please. Paul read to her often, as did Angel. Tom Vanadium sat with her, too, as did Celestina and Grace. "No, the monster lives in there," Barty said, which was a joke, because he'd never suffered night frights of that-or any--sort. His homely face was long and narrow, as though pulled into that shape by the weight of his responsibilities. In other circumstances, however, his generous mouth might have shaped an appealing smile; and his green eyes had in them the compassion of someone who himself had known great loss. Clutching the red rose in his left hand, the brightly wrapped gift box half crushed in his right, Thomas Vanadium lay at Junior's mercy, with no tricks to perform, no quarter to set dancing across his knuckles. Curiosity brought him here. Curiosity and a talent for self-preservation. Earlier, Vanadium had not come to Naomi's graveside as a mourner. He had been there as a cop, on business. Perhaps he had been at the other funeral on business, too. The stumpy ghost departed the sliding stairs at the second floor and walked off into women's sportswear. She devoted half her work time to the neighbors-in-need route that Agnes had established and steadily expanded, the other half to her painting. She was in no rush to mount a new show; anyway, she didn't dare renew contact with the Greenbaum Gallery or with anyone at all from her past life, until the police found Enoch Cain. After checking her carotid artery and detecting no pulse, Junior returned to the sofa in the living room. He fluffed the little pillow and left it precisely as he had found it. "So I drew attention to myself. Raised suspicions. One night, in St. Louis, this rube recognized me from my performing days, even though I'd changed my looks. It was a high-stakes game, but the players weren't high-class. They ganged up on me, beat me, and then smashed my hands, one finger at a time, with a tire iron." The window mechanism creaked, the two tall panes began to open outward but too slowly, and the cold white night exhaled a chill plume of breath into the room. He reached the end of the alleyway, stumbled into the stream of pedestrians, nearly knocked over an elderly Chinese man, turned, and discovered ... no Vanadium. "This was back on January 24, 1556," said Edom with unhesitating authority, for he had memorized tens of thousands of facts about the worst natural disasters in history. "Your dad didn't just like Christmas, he loved Christmas. He started planning for it in June. If there wasn't already a Santa Claus, your father would have taken on the job." Leaving Spruce Hills, Junior thought he was putting distance between himself and his enigmatic enemy, gaining time to study the county phone directory and to plan his continuing search if that avenue of investigation brought him no success. Instead, he had walked right into his adversary's lair. "Done," Agnes said. "Now put away the three dollars, and let's have our lesson before my water breaks." This was his door, however, not hers. She did not possess a ticket to ride the train that had come for him. He boarded, and the train was gone, and with it the light in his eyes. She lowered her mouth to his, kissing him one last time, and taste of his blood was not bitter, but sacred.
